Est. 2012

Hwange National Park is the largest Park in Zimbabwe occupying roughly 14 650kms, and is located in the north-west corner of the country about an hour south of the Mighty Victoria Falls.

Over 100 species of mammals and more than 400 birds (with a supporting cast of innumerable insects, spiders amphibians and reptiles) can be seen here – including the world famous Presidential elephants. The elephants of Hwange are world famous and the Park's elephant population is one of the largest in the world.

The park is a curious mixture of semi-desert, forest and open savannah, each area undergoing fantastic changes as the seasons march on. The game viewing is superb and the teeming herds of sable, elephant, giraffe, impala, zebra and wildebeest give a hint of the richness of southern Africa's wildlife in bygone days.

Experience the Best of Hwange....

DETEEMA SPRINGS

Located near the Deteema dam in north western Hwange National Park – an area famous for large concentrations of animals, including elephant. This area is ideal for walking and game drives, producing incredible wildlife sightings. Deteema is a non-pretentious camp with a 'Less is More' style, designed to blend into the surroundings. The tents are comfortable with all the facilities of a luxury camp. The main tented area boasts decks overlooking the Deteema Springs, offering the opportunity to sit and watch the bush unfold in front of you.

VERNEY'S CAMP

Situated within the central side of the popular south-eastern part of Hwange National Park, Verney's Camp is a private concession of 10,000 hectares. It is in an extremely remote part of the National Park that is neither frequented, nor can it be accessed by regular Park visitors. Ten tents are tucked under the shady teak trees bordering the open waterhole in front of the camp. Verney's Camp is a beautiful amphitheatre fringed by teak forest that opens up onto an impressive waterhole that is a playground to the famous elephant herds of Hwange.
